NRC: 0.80

## APPLICATION

Screen

## DESCRIPTION

Stitch screens combine a thick lined fabric with an embroidered check pattern to produce a sense of expressive softness to any space. Ash legs complement the floor screen design and provide stability. Stitch was developed with public spaces in mind but its soft design works equally well to create partitions and acoustic value in the office or home.

## BENEFITS

**Designed for the Environment:** Stitch is manufactured on the basis of technical, environmental and production ethical requirements. There are no emissions to air, water or land during the production of Stitch. The sound-absorbent core of Stitch contains recycled materials. Stitch Screen is recyclable.

**Improved Sound Absorption:** Stitch Screen is ideal for high frequency absorption and achieves an NRC 0.80 rating. The thickness and structure of Stitch, with its embroidered 'quilt-like' check patterns, make an excellent sound absorber.

**Recyclable:** The materials in Stitch Screens are recyclable, either as material recycling or energy recovery.

**Care:** To preserve the fabric color and appearance of the fabric, Stitch floor screen should be vacuumed regularly with a soft nozzle. To remove stains dab or wipe gently with a moist cloth.
