### BENEFITS

**Designed for the Environment:** Scala is manufactured on the basis of technical, environmental and production ethical requirements. There are no emissions to air, water or land during the production of Scala. The sound-absorbent core of Scala contains recycled materials. Scala Screen is recyclable.

**Improved Sound Absorption:** Scala Wall Tile is ideal for high-frequency absorption and achieves an NRC 0.80 rating.

**Recyclable:** The materials in Scala Wall Tiles are recyclable, either as material recycling, or energy recovery.

**Please Note:** We recommend having a small gap between joins to keep panels in line. Scala Panels **CANNOT** be cut in the field.

### DESCRIPTION

Scala Wall Tile is made from compressed felt fabric on a molded sound-absorbing polyester core. The design of the sound-absorbent Scala is not only developed for visual reasons, but primarily to contribute to a softer soundscape. Wall tiles are available in an assortment of sizes, both portrait and landscape orientations and are hung using metal fittings concealed behind the tile.
SCALA WALL TILE DIMENSIONS

We recommend having a small gap between joins to keep panels in line.
