## DESCRIPTION

Domo is an uncommonly elegant screen system that is easy to work with in better adapting a space to privacy needs and in creating a tranquil soundscape.

## BENEFITS

**Designed for the Environment:** Domo is manufactured on the basis of technical, environmental and production ethical requirements. There are no emissions to air, water or land during the production of Domo. The sound-absorbent core of Domo contains recycled materials. Domo Wall is recyclable.

**Improved Sound Absorption:** Domo Screen is ideal for high frequency absorption and achieves an NRC 0.60 rating.

**Recyclable:** The materials in Domo Screens are recyclable, either as material recycling or energy recovery.

**Care:** To preserve the fabric color and appearance, Domo floor screen should be vacuumed regularly with a soft nozzle attachment. To remove wet stains, use uncolored paper towels or a cloth to soak up as much of the wet stain as possible. Dried stains should be vacuumed. Moisten the stain lightly with a clean cotton cloth, lukewarm water and a very small amount of pH-neutral detergent. Press a dry cloth or uncolored paper towel against the fabric so that moisture and dirt are absorbed. Repeat process if necessary.

**Screen Legs:** The height of the steel Domo Floor Screen legs are 18.1" with 8.9" visible on each side of the screen, and 1.18" visible on the outside width of the screen. The screen itself is raised 2.6" from the floor with the legs attached.
