ACOUSTIC

NRC: 0.50

APPLICATION

Screen

DESCRIPTION

My hive is a flexible workstation available in two different models: A spacious, rectangular workstation, and also a hexagon-shaped workstation. The key features of this product create a minimal and elegant expression: First, instead of legs, My Hive integrates the table-top into the sound absorbent screens. Second, the mechanism for adjusting height is hidden behind zippers. Third, there is a smart case under the table used to store the cables.

BENEFITS

Designed for the Environment: My Hive is manufactured on the basis of technical, environmental and production ethical requirements. There are no emissions to air, water or land during the production of My Hive. The sound-absorbent core of My Hive contains recycled materials. The wood used for the frame of My Hive meets applicable requirements for traceability. My Hive is recyclable.

Improved Sound Absorption: My Hive is ideal for high frequency absorption and achieves an NRC 0.50 rating.

Recyclable: The materials in My Hive are recyclable, either as material recycling or energy recovery.
