ACOUSTIC

NRC: 0.35 (see graph on following page)

APPLICATION

Screen

DESCRIPTION

Soneo can be used as a single or ganged floor screen or as a table screen. All configurations create visual and acoustical comfort. Its wooden frame contains a sound absorbing mineral wool core that is covered in a wide range of fabric options. The frame consists of anodized aluminum.

BENEFITS

Designed for the Environment: Soneo is manufactured on the basis of technical, environmental and production ethical requirements. There are no emissions to air, water or land during the production of Soneo. The sound-absorbent core of Soneo contains recycled materials. Soneo Table Screen is recyclable.

Improved Sound Absorption: Soneo Screens are ideal for high frequency absorption and achieves an NRC 0.35.

Recyclable: The materials in Soneo Table Screens are recyclable, either as material recycling or energy recovery.

Accessories: Soneo Table Screens have optional accessories in transparent acrylic with a minimalist style. The accessories are available in three different designs: penholder, shelf and letter holder.

Care: To preserve the fabric color and appearance of the fabric, Soneo floor screen should be vacuumed regularly with a soft nozzle attachment. To remove wet stains, use uncolored paper towels or a cloth to soak up as much of the wet stain as possible. Dried stains should be vacuumed. Moisten the stain lightly with a clean cotton cloth, lukewarm water and a very small amount of pH-neutral detergent. Press a dry cloth or uncolored paper towel against the fabric so that moisture and dirt are absorbed. Repeat process if necessary.

SONEO TABLE SCREEN PERFORMANCE
