## BENEFITS

### Designed for the Environment:

- Designed for disassembly + recyclable
- ecoustic® SC panels are low-VOC + Oeko-Tex Certified
- California 01350 Emissions Compliant

**Lightweight, Easy to Handle + Install:** Compared to traditional panels, ecoustic® V panels + tiles are lower in weight, easier to handle, and results in reduced transportation costs. ecoustic® V can be trimmed and installed without the need for additional finishes, which reduces labor and material costs. V panels and tiles supplied are precision cut.

**Custom:** ecoustic® V panels and tiles are available in 8 patterns. Custom patterns are available, please contact Unika Vaev customer service for more information regarding custom pattern creation.

**Moisture Absorption:** After four days at 122° C, 95% RH the moisture absorbency of the 0.47" and 0.94" panel + tile was less than 0.3% and 2.9% by weight respectively. As V panels + tiles are made from 100% polyester, they will not degrade over time due to moisture, mildew, or rot in office environments.

**Toxicity:** Polyester is non-toxic and is classed the same as wood under the State of New York Article 15 Part 1120. ecoustic® V does not contain any Red List Chemicals (USA EPA).

**Building Rating Systems:** ecoustic® V will contribute the following points for Green Star, LEED + WELL building standards.

Criteria	Green Star	LEED	WELL
Low VOC	✓	✓	✓
3rd Party Certification	-	✓	N/A
Toxic Material Reduction	N/A	N/A	✓
Sound Reducing Surfaces	N/A	N/A	✓
