**Acoustic Performance:** The raw material ecoustic® Solid Color 0.35" panel achieves an NRC 0.85 rating (8" airgap). ecoustic® Tango Disc & ecoustic® Tango Oval equates to 30% and 50% of the surface area respectively of an ecoustic® SC panel, which is 96" x 48".

**Designed for the Environment:** Easy to disassemble and separate into the appropriate recycling systems, ecoustic® Tango can be recycled.

**Low VOC + Oeko Tex Certification:** The raw material ecoustic® SC 0.35" panel is certified low-VOC and Oeko Tex certified.

**Please Note:** Variation in thickness, color as well as flecks and other slight surface blemishes are an inherent feature of this product and are unavoidable. Variation from batch to batch may occur.

**Aesthetics:** ecoustic® Tango installations and configurations have a unique quality created by lowering or elevating its suspension points. ecoustic® Tango brings movement and life to acoustic sculpture. Tango is comprised of multiple cross-section profiles inserted into a flexible cable supported acoustic base. ecoustic® Tango is a lightweight acoustic element which can be installed in clusters and/or in unique arrangements to provide passive ambience within noisy environments.

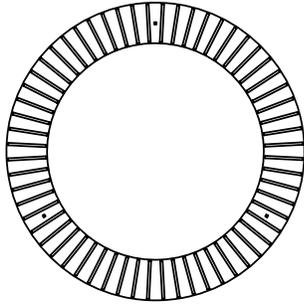

**Building Rating Systems:** ecoustic® Tango will contribute the following points for Green Star, LEED and WELL building standards.

Criteria	Green Star	LEED	WELL
Low VOC	✓	✓	✓
Recycling	✓	✓	NA
3rd Party Certification	NA	✓	✓
