ACOUSTIC	Shown below by thickness:
AS/ISO 354	0.47" Tile- NRC 0.85 (8" air gap)
	0.94" Tile- NRC 0.95 (8" air gap)

DESCRIPTION ecoustic® Ceiling Edit is a highly functional and easy-to-install drop-in acoustic ceiling tile available in five classic designs.

Environment: Edit is fully recyclable, Low-VOC, Oeko-Tex certified, Mindful Materials, and HPD.

Drop Ceiling Specification: ecoustic® Edit drop-in ceiling tiles are designed to be compatible with 15mm and 24mm Exposed Tee 1200 grid systems. Ensure the tile is suitable for your selected system prior to ordering.

Moisture Absorption: After four days at 50°C, 95% RH the moisture absorbency of SC 12mm was less than 0.3% by weight respectively. As ecoustic® Edit is 100% polyester, it will not degrade over time due to moisture, mildew or rot in office environments.

Fixtures: Any fixtures must be supported independent to the ecoustic® Edit ceiling tiles. The tiles can be cut on site to accommodate for new and existing lighting and fixtures. When cutting use a new blade for each cut and ensure the area to be cut is fully supported throughout. Cut from the tile face with care.

HVAC: Ensure ecoustic® Edit is compliant with the specified HVAC system. Edit is recommended for Ducted Return Air and is not Plenum Return Air rated.

Back Loading: ecoustic® Edit ceiling tiles are not suitable for back loading. Loads must be supported independently by the grid or through the use of additional fixtures.

Toxicity: Polyester is non-toxic and is classed the same as wood under the State of New York Article 15 Part 1120. Edit does not contain any Red List Chemicals (USA EPA).

Back Lighting: LED lights can be integrated seamlessly on top of ecoustic® Edit ceiling tiles.
